6. The programme aims at building strong and sustainable grass roots institutions of rural poor women and enabling them to access their own social networks, resources and knowledge for gainful self-employment and skilled wage employment opportunities and thereby achieve appreciable improvement in their livelihoods on a sustainable basis. Universal social mobilization through formation of Self Help Groups (SHGs) under NRLM and federating these groups at village and higher levels will ensure at least one member of each rural poor family, preferably a woman member, is covered under SHG and is part of a large social network. NRLM proposes to ensure universal financial inclusion for them by facilitating opening of savings accounts of all SHGs, simultaneously encouraging their thrift and credit activities and facilitating access to credit and other financial services from banks. There is a provision under the programme for training and capacity building of interested members to take up micro enterprises for enhancing their incomes. In addition to self employment, NRLM also focuses on supporting rural poor youth for accessing skilled wage employment through placement linked skill development projects. NRLM is a demand driven programme and the States formulate their own poverty reduction action plans.
